📍 India

PROFILE SUMMARY

Results-driven Junior Software Engineer with experience in production support, database management, Linux administration, application deployment, and troubleshooting. Proficient in SQL and Linux with hands-on experience in server monitoring, database operations, build and patch deployments, incident resolution, and application support.

EXPERIENCE

Anunta Technology Management Services

Junior Software Engineer

2025 – Present

India

- Monitored and maintained production servers, databases, and application services.
- Executed SQL queries for troubleshooting, data validation, and database operations.
- Supported Linux-based application and database servers in production environments.
- Analyzed application and server logs and resolved incidents within SLA timelines.
- Performed application build and patch deployments across multiple client environments.
- Conducted pre-deployment and post-deployment validation checks to ensure application availability.

Anunta Technology Management Services

Intern

Mar. 2025 – Jun. 2025

India

- Assisted in production support and application maintenance activities.
- Executed SQL queries for troubleshooting and data validation.
- Supported Linux server monitoring and maintenance activities.
- Participated in application deployment and validation activities.

PROJECTS

EuVantage Application Maintenance & Deployment Support

- Supported application maintenance activities in Linux production environments.
- Performed application build and patch deployments across multiple client environments.
- Conducted pre-deployment and post-deployment validation checks.
- Monitored application services and resolved deployment-related issues.
- Performed system health checks to ensure application availability and stability.

EuVantage Client Onboarding Automation

- Developed end-to-end automation scripts using Playwright and JavaScript.
- Automated EuVantage client onboarding workflows and validation scenarios.
- Reduced manual validation efforts through UI automation.
- Performed UI and functional testing of application modules.

Employee Management Database

- Designed relational database tables for employee data management.
- Created SQL queries using joins, subqueries, views, and stored procedures.
- Generated reports for employee records using SQL queries.

EDUCATION

Madras University <i>Master of Computer Applications (MCA)</i>	2024 <i>India</i>
Kumararani Meena Muthaiya College of Arts and Science <i>Bachelor of Computer Science</i>	2022 <i>India</i>

TECHNICAL SKILLS

Operating Systems: Linux, Windows
Database Technologies: SQL, Database Management, Joins, Views, Subqueries, Stored Procedures
Production Support: Server Monitoring, Log Analysis, Application Support
Deployment: Build Deployment, Patch Deployment, Pre-Deployment Validation, Post-Deployment Validation
Automation: Playwright, JavaScript
Web Technologies: HTML, CSS
Tools & Other Skills: Excel, Database Backup and Restore, Troubleshooting, Problem Solving

LANGUAGES

Tamil, English
